

Microsoft Dynamics 365 for Finance and Operations

Whether you are looking to improve the financial performance of your organization, reduce costs, or increase revenue, investing in an ERP can be an organization changing event. When it comes to providing an ERP solution that effectively connects partners, customers, and employees, and that is simple to implement and easy-to-use, Microsoft Dynamics 365 for Finance and Operations (D365FO), formerly known as Dynamics AX, is in a category by itself.

At Synoptek, we understand that such a profound change for an organization should be handled with a skilled approach that suits your business needs and IT requirements as you continue to grow in size and complexity. Synoptek also has expertise in turning around failed ERP implementations, and has helped organizations in overcoming challenges stemming from a previously improper ERP implementation.

Delivering a Complete Suite of D365FO Services

- Business Consulting and Advisory Services
- Full Cycle Implementation
- Turning Around Troubled Implementations

Delivering Business Results for Clients:

Dynamics 365 for Finance and Operations Implementation and Support

Upgrade from Dynamics AX 2012 R3 to Dynamics 365 for Finance and Operations

Dynamics 365 for Finance and Operations Implementation and Support

“Dynamics AX helps renovating enterprise software for business results by replacing legacy systems with standardized processes and complete visibility into operations. Synoptek, a trusted partner, was proactive in helping Champion save between 60 and 75% of what Champion was spending with previous partners.”

- Dave Hofmeister (CIO) and Eric Sweitzer (CFO), Champion Windows

Why Choose Synoptek?

- **Implementation Best Practices** for implementing, customizing, integrating, and upgrading Dynamics ERP for almost a decade.
- **Adaptability and Flexibility** to help you meet the changing business scenarios.
